МАТЕМАТИЧЕСКИЙ СБОРНИК
Том 106(148)(1978), вв. 3–4 и Том 107(149)(1978), вв. 1–4
MATHEMATICS OF THE USSR-SBORNIK
Volume 35, Numbers 1–6, 1979

## AUTHOR INDEX

**Agračev, A. A. and Gamkrelidze, R. V.** *The exponential representation of flows and the chronological calculus* ..... 727

**Aleksandrov, A. B.** *Approximation by rational functions, and an analogue of the M. Riesz theorem on conjugate functions for $L^p$-spaces with $p \in (0, 1)$* ..... 301

**Andrianov, A. N. and Kalinin, V. L.** *On the analytic properties of standard zeta functions of Siegel modular forms* ..... 1

**Antonec, M. A.** *The algebra of Weyl symbols and the Cauchy problem for regular symbols* ..... 317

**Bujalo, S. V.** *Some analytic properties of convex sets in Riemannian spaces* ..... 333

**Čistjakov, G. P.** *On the $\alpha$-decompositions of characteristic functions that are limiting values of analytic functions* ..... 555

**Danilov, V. I.** *Polyhedra of algebraic varieties and dominant morphisms* ..... 35

**Dautov, Š. A. and Henkin, G. M.** *Zeros of holomorphic functions of finite order and weighted estimates for solutions of the $\bar{\partial}$-equation* ..... 449

**Džjadyk, V. K. and Filozof, L. I.** *The rate of convergence of Padé approximants for some elementary functions* ..... 615

**Fedosov, B. V. and Šubin, M. A.** *The index of random elliptic operators. II* ..... 131

**Filozof, L. I.** See Džjadyk, V. K.

**Fomenko, V. T.** *Some properties of two-dimensional surfaces with zero normal torsion in $E^4$* ..... 251

**Gamkrelidze, R. V.** See Agračev, A. A.

**Gricenko, V. A.** *Analytic continuation of symmetric squares* ..... 593

**Guseľnikov, N. S.** *Triangular set functions and Nikodým's theorem on the uniform boundedness of a family of measures* ..... 19

**Haratišvili, G. L. and Tadumadze, T. A.** *Nonlinear optimal control systems with variable time lags* ..... 863

**Heladze, Š. V.** *Convergence of Fourier series almost everywhere and in the L-metric* ..... 527

**Henkin, G. M.** See Dautov, Š. A.

**Hruslov, E. Ja.** *The asymptotic behavior of solutions of the second boundary value problem under fragmentation of the boundary of the domain* ..... 266

**Ignatov, Ju. A.** *Free and nonfree subgroups of $PSL_2(\mathbf{C})$ generated by two parabolic elements* ..... 49

**Jafaev, D. R.** *On the singular spectrum in a system of three particles* ..... 283

**Jakovlev, A. V.** *Structure of the multiplicative group of a simply ramified extension of a local field of odd degree* ..... 581

**Kabanov, Ju. M., Lipcer, R. Š. and Širjaev, A. N.** *Absolute continuity and singularity of locally absolutely continuous probability distributions. I* ..... 631

**Kadomcev, S. B.** *The impossibility of some special isometric immersions of Lobačevskiĭ spaces* ..... 461

**Kalinin, V. L.** See Andrianov, A. N.

**Jakovlev, A. V.** *Structure of the multiplicative group of a simply ramified extension of a local field of odd degree* ..... 581

**Kabanov, Ju. M., Lipcer, R. Š. and Širjaev, A. N.** *Absolute continuity and singularity of locally absolutely continuous probability distributions. I* ..... 631

**Kadomcev, S. B.** *The impossibility of some special isometric immersions of Lobačevskiĭ spaces* ..... 461

**Kalinin, V. L.** See Andrianov, A. N.

**Kametaka, I. and Oleĭnik, O. A.** *On the asymptotic properties and necessary conditions for existence of solutions of nonlinear second order elliptic equations* ..... 823
**Karahanjan, M. I.** *On some algebraic characteristics of the algebra of all continuous functions on a locally connected compactum* ..... 681
**Kašin, B. S.** *Remarks on estimating the Lebesgue functions of an orthonormal system* ..... 57
**Kobzev, G. N.** *On tt-degrees of recursively enumerable Turing degrees* ..... 173
**Kondratjuk, A. A.** *The Fourier series method for entire and meromorphic functions of completely regular growth* ..... 63
**Kozlov, S. M.** *Averaging differential operators with almost periodic, rapidly oscillating coefficients* ..... 481
**Krasovskiĭ, N. N.** *Differential games. Approximation and formal models* ..... 795
**Krylov, N. V.** *On passing to the limit in degenerate Bellman equations. II* ..... 351
**Lipcer, R. Š.** See Kabanov, Ju. M.
**Lopes, G. [Guillermo López L.]** *Conditions for convergence of multipoint Padé approximants for functions of Stieltjes type* ..... 363
**Magomedov, G. A. and Palamodov, V. P.** *Generalized analytic functions of several variables* ..... 181
**Miščenko, E. F.** *The asymptotics of relaxation oscillations* ..... 787
**Muraveĭ, L. A.** *On the asymptotic behavior, for large values of the time, of solutions of exterior boundary value problems for the wave equation with two space variables* ..... 377
**Novikov, A. A.** *On conditions for absolute continuity of probability measures* ..... 697
**Oleĭnik, O. A.** See Kametaka, I.
**Oskolkov, K. I.** *Polygonal approximation of functions of two variables* ..... 851
**Palamodov, V. P.** See Magomedov, G. A.
**Petruško, I. M.** *On the boundary and initial values of solutions of parabolic equations* ... 85
**Politjukov, V. P.** *On the theory of upper and lower solutions and the solvability of quasilinear integro-differential equations* ..... 499
**Poljakov, E. A. and Rozinas, M. G.** *Relationships between different forms of relative computability of functions* ..... 425
**Rozanov, Ju. A.** *On the paper "Markov random fields and stochastic partial differential equations"* ..... 157
**Rozinas, M. G.** See Poljakov, E. A.
**Ruderfer, V. I.** *On the zeros of the solutions of a class of analytic systems* ..... 207
**Šafiro, A. A. and Šunkov, V. P.** *A characterization of infinite Černikov groups that are not finite extensions of quasi-cyclic groups* ..... 569
**Šamojan, F. A.** *Embedding theorems and a characterization of traces in the spaces* $H^p(U^n)$, $0 < p < \infty$ ..... 709
**Šapovalov, A. V.** *Finite-dimensional irreducible representations of Hamiltonian Lie superalgebras* ..... 541
**Šeretov, V. G.** *On the theory of extremal quasiconformal mappings* ..... 437
**Sevast'janov, E. A.** *Rational approximation and absolute convergence of Fourier series* 509
**Širjaev, A. N.** See Kabanov, Ju. M.
**Šubin, M. A.** See Fedosov, B. V.

**Suhinin, M. F.** *On the differentiability with respect to the initial condition of a solution to an ordinary differential equation* ..... 115
**Šunkov, V. P.** See Šafiro, A. A.
**Tadumadze, T. A.** See Haratišvili, G. L.
**Tuganbaev, A. A.** *The structure of modules close to projective modules* ..... 219
**Turaev, V. G.** *Intersections of loops in two-dimensional manifolds* ..... 229
**Zaĭcev, M. V.** *On finitely based varieties of Lie algebras* ..... 165
